

Net Forest Carbon Sequestration Report

This paper aims to provide a rationale for the certification of CDR by calculating the amount of carbon sequestration for a specific commitment period (CP) **between 2021 and 2022**.

Region

Location:

Frankfurt am Main,
Germany

Total analysis area:

4141,64 ha

Commitment period:

2021 - 2022

Legend:

— the analysis area
— Frankfurt am Main

CA ₂₀₂₁	CA ₂₀₂₂	Carbon subtracted
233776.88 tons	251528.03 tons	17751.15 tons

Where CA stands for the total carbon amount for the indicated year.

Report date: 03/29/2023
